A Plan Secretary Windom is Consider-ing to Relieve the Situation.

Among the plans Secretary Windom is discussing, with a view of embodying such as he may finally determine upon in his annual report to Congress, is one proposing that the Treasury be empowaf to latue \$500,000,000 in bonds hearine interest at the rate of 21 or even 2 per cent. per annum, redcemable in any gal currency at the option of the olders. The intention is to use them to take up the bonds now outstanding which bear a higher rate of interest.

is thought this would be a step toward the prevention of further stringency in the money market. It is exected the national banks will oppose his measure, because it will reduce their profits by the reduction of the rate of faterest on the bonds they hold to retary, however, realizes the necessity for some step in response to the de-unal for more money. The feeling in the West is decidedly in favor of the enlargement of the of the enlargement of the volume of currency. If it be not ac-ceded to, the next House is likely to vote not only for the free columns of silver, but for the abolition of the na-tional banking system. The former measure would undoubtedly pass both Houses. The latter, if no relief be ifforded, would pass the House, and, even if it did not become a law, would add a very vexatious issue to the campulge of 1892, an issue the Secretary is celtous of avolding.

MENTS ON CLEVELAND. New Youx, Nov. 20,-Ex Congress man Philip B. Thompson, jr., of Kenucky, dined at the Hoffman House last vening with his brother-in-law, ex-Congressman Jack Adams. They served in the House together and have kept up the acquaintance begun there. Mr.

Thompson is a typical Kentucklan in speech and manners.

"The Democrats here," said Mr. Thompson to a reporter of the Sun, 'ought not to let up on that pretentious humbug, Cleveland, for an instant. I humbug, Cleveland, for an instant. I have read his very modest statement, made at the Chamber of Commerce dinner last evening, that Mr. Springer neminated him for President, with the sole view of attracting attention to Springer. Why, he must think that he is a veritable Eiffel tower, politically, on which men must elimb to make themselves conspicuous. Let us see themselves conspicuous. Let us see whether he is or not. nates. "Neither he nor his secretary, Lamont, would have any position except for the money and folluence of those who are around them. He has never been known to take part in any fight in which Democracy was contested. He has not opened his mouth or raised his reice, or even publicly cast his ballo to support and encourage the rank and file of his party. Even when the policy of the Democracy was on trial in the McKinley district, started by Colone Morrison and fostered by Carlisle, Mr. Cleveland was in Washington city, practicing law before the Supreme Court on a New Orleans case. There was no apparent reason to call him late the case, except that a lot of English capitalists were trying to enforce against that unfortunate city some claims grow-

ing out of the corrupt practices of reconstruction days.

But, to my utter surprise, the morning after election I read in the news-papers that Mr. Cleveland claimed the credit of defeating McKinley, though he had not raised his hand, but left the fighting to Governor Hill.

WHAT CHANDLER SAYS.

THE SENATOR ON THE SITUATION IN NEW HAMPSHIRE. NEW YORK, Nov. 20 .- Senstor William E. Chandler telegraphs the follow-

ing from Concord to the editor of the Tribuse: "The situation in New Hampshire is simply this: The Republican candidate for Governor has 100 more votes than the Democratic cantillate, but by reason of 1,300 Prohibition votes there is no choice, and the election goes to the Legislature. The Friday after lection day the Democratic Manchester aion made this aunouncement of the stures for members of the Legislature There have been elected a grand total of 188 Democrata and 199 Republicans. Thereupon the Union declared that this Republican majority—admitted by it to be two, but which I say is neares ten than two—abould be converted into a

This scheme was to be carried out first by excluding from the roll of mem-burn elected forty persons, twenty soven of whom are Republicans and thirteen Democrats, representing under the census of 1980 about 60,000 luhabituuts. The second part of the plot was to admit to membership thirty five persons, twenty three of whom are Democrats and twelve Republicans, representing only 7,000 inhabitants. These alleged members commuten the small 'classed'

Mean while, the Governor and his council think of calling an extra session for the election of a clerk and the passage of some proper law to secure an orderly organization of the coming House and to prevent civil strife."

WILL REED BE UNSEATED!

AN ALLEGED DEMOCRATIC PLOT TO SUST THE MAINE MAN. NEW YORK, Nov. 20 .- A special from Washington to the Tribune says: That a scheme is afoot in which many prominent Democrats are concorned, to have Democratic committee of the next House investigate the September elec-tion in the First Congress district of Maine, there is excellent reason to belleve. There is no other man in the Republican party whom Democrats hate with so deep and malignant a hatred as they do Thomas B. Reed, and the fact

that he will be the teader of the Repub-lican minority in the next House has elven the overflowing cup of their re-tolding a strong flavor of gall, which is made to taste unusually bitter by the relection that his majority was increased hearly 100 per cent, over the majority ne received two years ago.
Indications are not wanting that Sen-

ator Gorman is one of the most active promoters of the scheme which is afoot. His personal organ, the Baltimore Sun, through its Washington correspondent, ias disclosed some of the details of the plot and at the same time has incidentally betrayed the deep interest felt by the Democratic National Committee in strempts to blast Mr. Reed's political prospects.
According to this correspondent, the

initiative is to be taken, when the LHd Congress assembles, by "prominent citi-zens in Mr. Reed's Congressional district," who are "to present a request, which should without doubt be promptly concurred in," for an investigation of the the election, based on allegations of "wholesale bribery and corruption," The correspondent further asserts that "the use of large sums of money, and the open purchase of voters at Reed's soalled triumphant re-election in Sepember last, are most easily susceptible of mof. The facts have been obtained, nd, it is claimed, can be substantiated irrifutable testimony before any comlittee of the House.

Naw Your, Nev. 20,-The following. s from the Washington correspondence in to-day's World: "The triumph over the Farmers' Alliance in Georgia has revived hope in the bosoms of the lead-ers of both of the old parties here. Not only are the Democrats greatly ca-couraged as to the outlook in other States where the antagonism of the Alliance looks threatening, but the Re-publicans also are plucking up heart and moving with something like spirit to try to save their men who are in

They are going to save him if they can, and their purpose now is to appeal to the Alifance in Kansas in the same vein as that curployed by the Democrats in Georgia in schalf of General Gordon.

That is to say, the Alliance men in the Kansas Legislature who have here-tofore been Republicans, are to be asked to forgive something to a man who is by common consent the most truly national figure in the State, and who must give way, if at all, to some one who has his name still to make.

George E. Mapes, Chairman Independent Republican State Committee.

Dran Sim: I take this first opportunity since the result of the election became known to thank your committee for the valuable aid they rendered to the people's cause in the recent campaign. The extent of the victory can only be appreciated by those who, like yourself and colleagues, know the tremendous resources in command of the bosses and their allies, resources that were exhausted to maintain baleful power by malign influences. How much you aided to uncover and expose evil methods and corrupt practices and to propagate right notions of duty and the true issues involved I can fully attest. My personal thanks are due to your committee for their disliterested efforts, but upright citizens everywhere throughout the State will congratulate you as their coadjutors in this great contest for the redemption of their government from the dominion of spoitsmen and bosses.

Yours, truly, Romer E. Patrison.

CHY ISLAND, N. Y., Nov. 20,-The rial of the new cruiser, Concord, took duce yesterday. The vessel made as high as 17 7 knots an hour, sporting at one time, it was estimated, to 18 knots, and waintaining an average for the trial of 17 knots per hour. This she did against a strong thial current. The Concord has proved herself faster than he Yorktown which has until now held the best gunboat record in the service.
But despite her splendid speed showing the Concord has failed to develop the requisite 3,400 horse power.

The failure is due directly to trouble which stose in the second hour of the

test with the after feed pump. To in-crease the difficulty the starboard after boller began to leak. Notwithstanding the trouble it is estimated that the Con-cord made between 3,000 and 3,200

opinion is expressed that Mr. Palmer will have the Concord ready in the course of a few days and send her over the Sound, doing a mean speed of 17.5 showed that the vessel is very handy.

Widespread Alarm Among the Settiers in the Indian Country.

REPORTS OF A BATTLE AT PINE RIDGE.

Many Warriors Killed -- Massing the Troops at That Point .- What the Department Is Doing.

The Indian question is becoming a crious one, and the rose colored views that provalled a week ago among Army officers have given way to one of alarm. The War Department is considering the advisability of concentrating all the available force. In the Stoux country, and particularly in the neighborhood of the Reselved and Pine Ridge scencies, for that is where the outbreak

Is expected to start. General Miles, who has been making a tour of the agencies, and endeavoring to allay the feeling among the Indians, to-day sent his report to General Scho-field. It was, by direction of Secretary Proctor, sent to him. Thereupon a heavy consultation was held with General McKeever, the acting adjutant gen-eral, and orders will be probably fested meet the emergency. General Miles report shows that the outlook for a general uprising is very threstealing and he dealers permission for the concentration of troops at the two agencies above named, with a view, if possible, to

overawe the more turbulent and hostile Indians. Shortly before noon a dispatch was received from General Miles, stating that the "ghost dancers" at the Rosebu I Agency, who have been the foremer in attempting to create strife, had left their reservation and gone to the Pine Ridge Ageacy, where they were using their influence to provoke an outbreak, and that the agent had been forced to aleandon his ent on account of the threatening be-navier of the Sioux. He also stated
